

MARTIN JEROME I

PYTHON DEVELOPER

PROFILE

Dedicated and results-oriented Python developer with around 1.8 years of experience in Python and Django development. Adept at building robust and scalable web applications.

Proficient in front-end and back-end technologies, with a strong foundation in software engineering principles and best practices.

TECHNICAL SKILLS

- Python
- Django
- Flask
- FastApi
- HTML/CSS
- JavaScript
- TypeScript
- Angular
- Numpy/Pandas
- SQL
- Azure
- Git

EDUCATION

Bachelor's Degree

Loyola College, Chennai, 2015 – 18

Master of Business Administration

PU-Loyola College, 2019 – 21

WORK EXPERIENCE

PYTHON DEVELOPER

Smartxoft Websolutions, Coimbatore
(Oct 2022-Present)

PROJECTS

OPHTHALMOLOGY SOLUTION

The Ophthalmology software integrates patient management, staff modules, appointment scheduling, and Electronic Health Records (EHR) functionalities. Built on Django, REST API, and MS SQL, it offers a comprehensive solution for efficient eye hospital operations, ensuring smooth coordination between patients, staff, and medical records.

- **Modules & Packages:** Appointment Scheduling, Patient Module, Staff Module

FOOD ENGINE

Revolutionizing culinary exploration through digital innovation, the Food Engine harmonizes Django, REST API, and MongoDB to facilitate the exploration of recipes, ingredients, and restaurants on an intuitive platform. The optimized backend ensures efficient data management, while the RESTful API facilitates smooth communication between frontend and backend components.

- **Modules & Packages:** Restaurant Locator, User Profiles, Order Management

ROLES AND RESPONSIBILITIES

- Collaborated with cross-functional teams, including frontend developers and project managers, to integrate frontend and backend components seamlessly.
- Analyzed and rectified software glitches with precision to ensure seamless functionality.
- Developed and maintained Python-based applications, implementing efficient algorithms and data structures to optimize performance and scalability.
- Debugged and enhanced existing code, driving the development of new features while upholding coding standards and best practices.
- Spearheaded the design and implementation of a scalable RESTful API architecture for a high-traffic e-commerce platform, resulting in a 30% increase in API response times and enhanced overall system performance.
